# I wish I could have had a Digibridge™

## GR 1658 $\mu$ P-based 1 kHz RLC Digibridge™

- Measures R, L, C, D, Q.
- 0.1% accuracy for R, L, and C.
- Autoranging.
- IEEE 488 bus option.
- 10 bins for sorting.
- Hi-Rel Kelvin test fixture accommodates axial and radial lead components.
- Five full-digit display for R, L, and C. Four full digits for D and Q. All numbers go to 9.
- Wide measurement ranges allow testing a greater number of component types.
